**DETAILED ACTION**

1. Applicant has amended claims 1, 3-5, 9, 13-14, 16-18, 31-22, 41-43, and added claims 48-51 in the amendment filed on 2/21/2008.

Claims 1-23, 41-51 are pending in this Office Action.

***Election/Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-23, 41-47 are drawn to managing public project and collaboration of public feedback on a server computer, classified in class 709, subclass 204.
- II. Claim 48-51 are drawn to providing multiple levels of access, classified in class 707, subclass 9.

3. Inventions I, II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, managing public project and collaboration of public feedback on a server computer in invention I can be used in providing a web portal to remotely access a communication manager application on a server computer having project team tools. Providing multiple levels access in invention II can be used in characterizing and filtering the large number of inputs. See MPEP § 806.05(d).

Art Unit: 2162

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Applicants are advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
